CMHS Infrastructure Development, Prevention and Mental Health Promotion (IPP) Indicator Requirements by Program and Cohort

Grantees report data on the IPP indicators assigned to their grant program and cohort (listed in the table below). The OMB-approved IPP Result Form can be used to collect data, and all IPP activities are required to be submitted to SAMHSA's Performance Accountability and Reporting System (SPARS) on a quarterly basis. Data entry screens in SPARS only show available indicators required for each grant program and cohort. This information was current as of the "Revised" date and is subject to change.
